I'm a Computer Science student passionate about building things for the web. I enjoy exploring Web Development, UI/UX design and creating interfaces that are both visually appealing and easy to use. I'm continuously learning new technologies, improving my problem-solving skills and turning ideas into practical projects.

EDUCATION

Canara Engineering College <i>Bachelor of Engineering in Computer Science (9.255 CGPA)</i>	Mangalore, Karnataka 2024 – 2028
Govt. Pre-University College <i>XII - PCMB (91.17%)</i>	Karwar, Karnataka 2022 – 2024
Amrita Vidyalayam <i>X - CBSE (87.6%)</i>	Karwar, Karnataka 2010 – 2022

TECHNICAL SKILLS

Languages: Java, C
Frontend: HTML, CSS, JavaScript, Bootstrap, Tailwind CSS
Backend: Nodejs, Express.js
Database: SQL, MongoDB
Framework: React.js
Version Control: Git, GitHub
UI/UX: Figma

PROJECTS

- | | |
|--|------------------------------|
| RoadNetra <i>HTML, CSS, JavaScript</i> | <i>August 2026</i> |
| <ul style="list-style-type: none">Developed a web-based road damage reporting platform that enables users to report road-related issues through a simple and user-friendly interface. | |
| ReClaim <i>HTML, CSS, JavaScript, UI/UX</i> | <i>August 2026</i> |
| <ul style="list-style-type: none">Built a lost-item reporting web application designed to help users report and recover lost belongings through an intuitive and accessible interface. | |
| Food Stock Availability Webpage <i>HTML, CSS, JavaScript</i> | <i>April 2025 – May 2025</i> |
| <ul style="list-style-type: none">Developed a responsive hotel menu management website using HTML, CSS, and JavaScript, allowing users to check dish availability in real time. Implemented an admin panel to dynamically update menu item availability. | |

ACHIEVEMENTS & EXPERIENCE

- Ceathrion Hackathon:** Participated in the Ceathrion Hackathon organized by our college, collaborating with a team to solve problems and develop innovative project solutions.
- InAmigos Foundation – Frontend Web Developer Intern:** Developed frontend webpages and worked on website presentation and user experience for an NGO-focused project.
- Synent Technologies – Web Development & Design Intern:** Worked on responsive webpages, website features, and UI/UX-related tasks.
- Rabtech Academy – Full Stack Web Development Intern:** Gained practical experience in frontend and backend web development while working on web application development.

COURSES AND CERTIFICATES

- **Infosys — Prompt Engineering Certification:** Learned effective prompt design techniques for AI tools, including structuring prompts for accurate, relevant, and context-aware responses. Gained practical understanding of generative AI applications and interaction strategies with large language models.
- **Simplilearn — Basics of Java Certification:** Developed foundational knowledge of Java programming concepts such as variables, loops, functions, object-oriented programming, and exception handling. Practiced writing simple Java programs and understanding core programming logic used in software development.
- **SkillUp — AI Literacy Certification:** Acquired basic understanding of artificial intelligence concepts, machine learning fundamentals, and real-world AI applications across industries. Learned about ethical AI usage, automation, and the growing impact of AI technologies in modern digital systems.
